Gomez Floor Covering, Inc.
1162 Security Dr.
Dallas, TX 75247

Bette Smith:

This is to express my appreciation for the fine job that your crew did on the re-carpeting project for the Brookhaven College Library, Dallas County Community College District. I was extremely impressed by the attention to detail, which included measuring each aisle (all were different distances apart), marking each book case, marking the beginning and ending book on each shelf, mapping out the location of all furniture. All the shelving units were moved and replaced in their proper locations without any damage; books were moved onto book carts and back onto shelves in perfect order. The crew even helped us out by straightening some shelving and bolting units together, above and beyond the job requirements.

This was a great tribute to your training and supervision. I would unreservedly recommend Gomez Floor Covering, Inc. for any library project.

Sincerely,

Ann Coder
